The white house is a mini military base, they have tear gas deloyers and fucking anti-aircraft shit. The second that any rioter is deemed a legitimate threat to a single hair on the president's ass, they will be turned into red mist.
This is literally "raid area 51" tier.

Just have one or two good tanks to shout BLM at the cops, maybe 3 or 4 healers to bandage the retards who stand in the mace AoE, and a competent fire mage (cause they are still op after their nerfs again) to AoE down the secret service in the Trump boss fight and bam your done.
Trumplands is gonna be another shitty expansion and they haven't improved anything at all during this delay to election day.

Requesting confirmation on the 7 year downward spiral:

https://archive.4plebs.org/pol/thread/286199826/#286224529

Latest BD return.

"Time travel is not sound but it works. The insanity feature is real. When you understand God creates the present from the matter of the future you begin to understand that cause and effect is nothing but a coping mechanism that humans have to explain and hide the true nature of what is. Never less we are here. Seven Days in November and beginning Tuesday the effort by the deep state, the democrats, members of the military, and elements of the Chinese communist party begin their efforts to overthrow the government.

The election simply kicks off seven years of a downward spiral and yes Barron Trump plays a major role in what is to come. Once Trump wins the election the overthrow of the American Government begins and that is just the beginning of what is to pass. Yes God is entertained and pissed off. You will see that soon enough in China."

You know...what really gets me, especially after proceedings before a Congressional Committee, is why these social media giants are not getting slapped with something like aiding & abetting insurrectionist causes?
The only thing I can figure is:
>Never interfere with your NME when they are making a mistake. Which they, without any doubt, most certainly are doing.

Our doing everything by the book DEMANDS we have undeniable proofs to bring them to justice with.

There will be good examples coming from this that will help move us forward in lawful intent.

Unfortunately not.
The data there is public and they just took the time to organize it and create the search, map, and display information. Even if you spent time finding a vulnerability that let you mess with the database, it can be re-created from the original copy easily.

With this site, since they are trying to gather data, if enough of us put in plausible fake data, there's no way they can really tell because their is no "right" database.
Political donation information is public, it's just usually a pain in the but to get at and display so effectively.

They tear gassed protesters
For a church visit that the church didn’t want the church is a centralized religion
Shows you how much the constitution is being up held by the military personal in the SS
When the constitution gets broken down or twisted this is the results what you see today
The forefathers knew exactly what they were doing in making the constitution

These are the useful idiots.
They are SUPPOSED to get turned into red mist.
The people pulling strings know a mob can't take the White House.
The point (unbeknownst to the rioters) is to provoke the state into violent action to further frame it as fascist.
These are classic Marxist / Leninist / Alinsky / CIA tactics.

years of military training, hunting, and football scrimages planning becomes extemporaneous, and impromptu.
Also most righties make plans with their bros around the poker table,buffet table, coke den, champagne room or the liquer cabinet.

I have friends and I know they have weapons, ammo and food.

My name is Cedic(he/him) Commander of the Revolutionary Trans Anarchofeministaqueer Platoon, leading my men/women/xirs into the White House as we lay siege from the South Lawn. We hide in the bushes however many of my soldiers are completley naked, that's okay though since we decided that it's actually transphobic to tell anyone to put

clothes on, so we're fine. We watch as Blumpf walks outside to announce his victory, and as he as he takes his first step one of my warriors charges at him, knocking him to the floor. We all follow suit, personally this was not my plan and we should have followed a progressive stack but let people enjoy things, incel. We beat the shit of the evil chud Drump, calling him names, "MAGAtard, Blumpf, Cheeto, Dump", we say, as we cheer in victory and sing "NAZIS GO HOME" and "The Internationale", signifying our victory.

"Anthony Smith ironically is a Youthbuild Charter school social studies teacher, and “Philly for Real Justice” representative."

Those are real fancy ways to classify bodies in the streets. We want this, let them commit legit acts of terrorism. The feds will clean house before we ever have to lift a finger. You have no idea how much power is truly invested in the executive branch.

But the new normal is the police are the bad people
It’s how groups will behave in the future
7 people arrested their are 2500 Americans that die every day
Population 300 million
Most don’t care anymore
That’s what to worry about when the masses just don’t have any control and do violence all the time
Could be the trump tone that caused this new trend

Of the government can’t see what they are doing and keep control of a city then that is there problem and maybe they do need to leave and let someone else take over
Look at all the states preparing for this
There was a protest in Beverly Hills and a fight broke out. Is there something wrong with this picture
People all over have gone crazy and it’s the new trend a dangerous trend

It’s about making an event where the left can point and say: look he’s killing people now.

At this point they will call for the UN to send peacekeepers and gay shit will really take off.

So get ready to defend the republic because we are under attack from enemies, both foreign and domestic

>But you have a soul and can't fathom that this is what they WANT to happen.
This is so true. Reality Bites.
They missed their chance when HRC lost, and have been amplifying towards this ever since.
Now they are a as prepared as they've ever been...even having the placement of Chink Troops on our border, and surrounding us off our shores...not counting those who are positioned in a neighborhood near you.
>THIS IS THEIR LAST STAND and they are hoping to be the victors.
I THINK NOT.
However, they are intent upon doing as much damage as they can...to get us to oppose them.
It is serious, and we should all take heed not to play their game.
>Let's see them fall upon their our swords; they are bound to make terrible mistakes.
